Published online: 02 August 2024

The Editor-in-Chief has retracted this article. An investigation by the Publisher has found a number of articles, including this one, which share similar concerns, involving but not limited to, irregularities with respect to submission, authorship, and peer review. The Editor-in-Chief therefore no longer has confidence in the results and conclusions presented in this article.

All authors disagree to this retraction.

The original article can be found online at <https://doi.org/10.1186/s42408-023-00216-0>.
